

MICKO LAPUZ

FULL-STACK DEVELOPER

 +63 915 390 4958  mickolapuz19@gmail.com  [Micko Lapuz | LinkedIn](#)

Profile

Full-Stack Developer passionate about building efficient, user-friendly web applications. Proficient in React, .NET, and SQL, with a strong foundation in both frontend and backend development. Adept at problem-solving and eager to contribute to innovative teams while continuously enhancing technical expertise.

Experience

IT Junior Developer

Citco International Support Services Limited - Philippine ROHQ

August 2023 - Present

Project 1:

- Optimized API calls, reducing reports page load time by 66-83% (from an average of 6 minutes to 1-2 minutes), significantly improving user experience and application performance.
- Fixed minor and critical bugs reported by users, enhancing system stability and reliability.
- Managed deployments for development and QA environments, by manual releasing processes and minimizing downtime of both Web API and Web UI.
- Implemented new features based on business requirements, contributing to product growth and user satisfaction.
- Conducted quality assurance (QA), ensuring high software standards through thorough manual testing and debugging.
- Designed and optimized SQL stored procedures, improving database performance and ensuring efficient data retrieval and processing.

Project 2:

- Led the initial setup of the frontend, backend, and database for a new internal tool, transitioning from legacy .NET C# to ReactJS, ASP.NET Core, and SQL.
 - Built a role-based user management system on the frontend, enabling secure access control based on business requirements.
 - Developed a dashboard page to display daily FX rate data and tool status, aligning with key business metrics and providing operational visibility.
 - Implemented backend logic for error detection and handling, ensuring resilience and traceability in daily FX rate imports across multiple administrations.
 - Designed and implemented a re-import mechanism in the backend, to automatically reprocess failed or incorrect data entries.
-

Education

Bachelor of Science in Electrical Engineering - University of Santo Tomas, Manila, Philippines - 2023

Skills

Soft Skills: Communication, Problem Solving, Time Management, Fast Learner

Frontend: HTML, CSS, JavaScript (ES6), ReactJS, TypeScript

Backend: . ASP .NET Core, C#

Tools: Bitbucket, Git, Github, Microsoft Visual Studio, Microsoft Visual Studio Code, Postman, Jira

Certificates

Meta: Programming with JavaScript (July 2023) & React Basics (July 2023)

LinkedIn Learning: .NET Fundamentals (Sept 2023) & C# (Oct2023) & Programming Foundations: Object-Oriented Design (Oct 2023)
